Dear Sir:

On March 12, 2003, a Notice of Allowance was mailed for the above-mentioned application that presented a statement of reasons for the allowance of the claims. Applicant traverses the statement in that its characterization of Feichtinger et al. does not appear to be entirely accurate. For example, the statement states that item 17 is a mounting shoulder while Feichtinger et al. describes item 17 as a tube (Col. 4, ll. 16-28). The statement is traversed in that there are broader

and/or other reasons why the claims are allowable over the prior art.

Respectfully submitted,

A handwritten signature in black ink, appearing to read "John C. Freeman", written over a horizontal line.
